

Which person does this job at the hospital?

I make sure patients
are comfortable.
I check charts and give
people medicine.

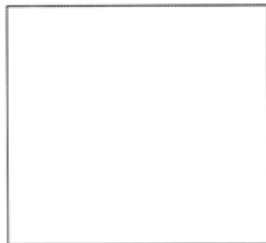

Who am I?

Which person does this job at the hospital?

I drive an ambulance
often at high speed.

Who am I?

I wear a long green
gown. I try to make
people better by
operating on parts of
their body that are not
working properly.

Who am I?

I talk to all the patients.
I move people and
items across the
hospital. I make sure
the hospital is clean
and tidy.

Who am I?
